Technical Data Sheet

Petrothene GA643000

Linear Low Density Polyethylene

Product Description

Petrothene GA643000 is a linear medium density polyethylene selected by customers for compounding and rotational molding. GA643000 is a barefoot resin and does not contain any additives. Addition of appropriate additives for final processing applications is suggested.

Regulatory Status

For regulatory compliance information, see Petrothene GA643000 Product Stewardship Bulletin (PSB) and Safety Data Sheet (SDS).

Status

Commercial: Active

Availability

North America

Market

Compounding

Processing Method

Compounding; Rotomolding

Notes

These are typical property values not to be construed as specification limits.

Processing Techniques

Specific recommendations for resin type and processing conditions can only be made when the end use, required properties and fabrication equipment are known.
